NPIC/TSG/RED-221/70
9 September 1970

MEMORANDUM FOR: Chief, Planning, Programming and Budgeting Staff
THROUGH : Chief, Technical Services Group
SUBJECT : Surplus 940 Light Tables

1. The PPBS memo on "Availability of Surplus Light Tables," dated 21 August 1970, indicates that certain types of light tables presently in use in IEG may become available to other NPIC components during the first half of 1971.

2. The Research & Engineering Division/TSG has several contracts and some in-house requirements which could utilize 940 light tables. A requirement exists for:

- 7 - 940 Split Format Tables (MIM #4)
- 6 - 940 MCE Tables
- 1 - 940 MC Table

3. Two of the RED/TSG contractors could use these tables at earlier dates. The [] could use a 940 Split Format Table in December 1970 for the Dry Silver Diazo Printer Contract. The [] requires two 940 MCE Tables early in January 1971 on the Scanning Viewer Evaluation Program.
